

JEEVAN THOMAS

MERN Stack Developer | Full Stack Developer

+91 9345470850 | jeevanthomas717@gmail.com | Kerala, India

Portfolio: <https://jeevanthomas.online> | **GitHub:** <https://github.com/jeevanthomas7> | **LinkedIn:** <https://linkedin.com/in/jeevan-thomas->

PROFESSIONAL SUMMARY

Results-driven MERN Stack Developer with proven experience building scalable, production-ready full-stack web applications using MongoDB, Express.js, React.js, and Node.js. Skilled in JavaScript (ES6+), REST API development, JWT authentication, Tailwind CSS, responsive UI design, Three.js, and AI integration. Adept at deploying cloud-hosted applications on Vercel and Render, optimizing performance, and delivering exceptional user experiences in fast-paced Agile environments.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript (Intermediate), Python (Familiar), PHP (Familiar)

Frontend: React.js, Next.js, HTML5, CSS3, Tailwind CSS, Framer Motion, Three.js

Backend: Node.js, Express.js, REST API Development, JWT Authentication, Socket.io

Database: MongoDB, MySQL

Tools: Git, GitHub, Postman, Vercel, Render, MongoDB Atlas, Firebase, Cloudinary

PROFESSIONAL EXPERIENCE

Frontend Developer | Ynot Info Solutions

Mar 2026 – May 2026

- Developed responsive, high-performance web applications using React.js, JavaScript, HTML5, CSS3, and Tailwind CSS, ensuring cross-browser compatibility and optimized load times.
- Collaborated with UI/UX teams to transform wireframes into scalable, maintainable React component architectures and integrated RESTful APIs for seamless data rendering.
- Optimized application performance, accessibility, and responsiveness across devices; participated in Agile sprints, code reviews, and debugging sessions to maintain delivery quality.

INTERNSHIP

MERN Stack Developer Intern | OneTeam Solutions

Jul 2025 – Jan 2026

- Designed and deployed full-stack application features using React.js, Node.js, Express.js, and MongoDB following MVC architecture and Agile workflows.
- Built and integrated RESTful APIs with CRUD operations and JWT-based authentication for secure, scalable user management.
- Engineered reusable React components and optimized frontend and backend modules, improving code maintainability and application response times.

PROJECTS

AI-Powered Music Recommendation Platform

GitHub: <https://github.com/jeevanthomas7/AI-Based-Music-Recommendation-System> | **Live:** <https://dot-in.vercel.app/>

- Built a full-stack MERN music streaming platform with AI-powered recommendations and Razorpay-integrated premium subscription functionality.
- Implemented JWT authentication, protected routes, scalable REST APIs, and optimized MongoDB queries for high-performance data access.
- Designed a responsive, modern UI using React.js and Tailwind CSS, enhancing user engagement and session retention.

Real-Time Chat Application

GitHub: <https://github.com/jeevanthomas7/Real-Time-Chat-App> | **Live:** <https://chatapp-chatify.vercel.app/>

- Engineered a real-time messaging platform using MERN Stack and Socket.io with JWT authentication, live user status tracking, and instant communication.
- Built scalable Node.js and Express.js backend services with authorization middleware; optimized responsiveness and performance across all devices.

AI Chatbot Application

GitHub: <https://github.com/jeevanthomas7/chatbot> | **Live:** <https://sky-chat-ai.vercel.app/>

- Developed an AI-powered chatbot integrating external AI APIs for context-aware conversational response generation and conversation management.
- Built a responsive React.js chat interface with clean architecture, focused on scalability, usability, and seamless user experience.

EDUCATION

Diploma in Computer Engineering

2023 – 2025

Government Polytechnic College Meppadi, Calicut University
